TECHNICAL SKILLS

Frontend & 3D

JavaScript (ES6+) / TypeScript
React.js / Next.js
Three.js / React Three Fiber
model-viewer / Augmented Reality (AR)
Tailwind CSS / GSAP / Framer Motion
Responsive Design & UX

Backend & Data

Supabase (BaaS & Auth)
REST APIs
Python / Django (Basic)

Tools & AI

Claude Code (AI-driven development)
Git & GitHub
Vite / Vercel

LANGUAGES

English — B1 (Intermediate)
Spanish — Native

Camilo Taborda

Software Developer · Front-End Focused

PROFILE

Software Developer who designs and ships complete, deployed applications, with a strong focus on front-end engineering. Comfortable across the stack — crafting modern interfaces with **React, Next.js and JavaScript**, and backing them with **Supabase**, REST APIs and Python for scalable, secure products. I bring a distinctive edge in interactive and 3D web: real-time product configurators and **Augmented Reality (AR)** experiences built with **Three.js and React Three Fiber**. My work pairs technical performance with clean, thoughtful design to deliver end-to-end solutions that elevate the user experience.

PROFESSIONAL EXPERIENCE

Ardata Tech

2023 — Present

SOFTWARE DEVELOPER

Build and ship end-to-end web applications with a front-end focus, using **Next.js, React and JavaScript** on the front and **Supabase** for data, authentication and backend services. Develop real-time 3D product configurators and **Augmented Reality (AR)** experiences with **Three.js, React Three Fiber and model-viewer**, turning static catalogs into interactive tools that boost engagement and conversion. Own features from architecture to deployment, delivering fluid, secure and scalable products.

77 Render Studio

2021 — 2023

SOFTWARE DEVELOPER

Developed interactive real-estate sales platforms for the property sector with **JavaScript and Supabase**, deployed on **Vercel**, enabling buyers to explore apartment availability, unit details and media galleries through a fluid, responsive interface that increased customer engagement by **40%**. Optimized internal project-management workflows, achieving a **25% reduction** in delivery times through asset digitalization.

EDUCATION

Continuous Learning in Software Development

Platzi

Specialization in modern front-end architectures, database management and web-performance optimization, with constant updates on the JavaScript ecosystem and immersive technologies. Explore my full list of certifications and portfolio at camilotaborda.dev.
